** ARGENTINA [non]. 9455, Fri May 8 from 2310 or so, I`m running N9AZZ IL SDR on the WRMI relay of RAE, which is in Portuguese; in the background, but at 2333 I realize they are talking about other SW stations, so a DX segment must have started, but is it olds or news? Continuous musical background. About Radio 567, 4970, Australia, best time to hear it in S America around 0600 UT - that is a bit early before sunset in NSW. Then on to station on 4010, must be Kyrgyzstan, that it has two brief English times at 0115 & 0415 Mon-Sat -- news to me, and to WRTH. Spanish from Turkey times and frequencies are B25! all wrong for now A26. Indonesia Spanish which is never going to reach America. Only Martí bc is M-F 14-22 on 11860 & 13605 -- NOT! 13605 was B frequency and sked now is daily and later into the night, four frequencies at once. Until 2340 outro as Atualidade DX, info from Arnaldo Slaen. Algo atrasado en Argentina (Glenn Hauser, OK, WOR)

** CANADA. 346 MCW kHz, May 7 at 0637 UT, dash and YXL, NDB at Sioux Lookout, Ontario, is JBA. If any Canadian beacon can make it here, even in summer/noisy conditions, this is it. And still on the air, tho reports are that many of them are being decommissioned, as in CIDX Messenger:

``362 kHz. CW; 0526 UTC, Apr. 13. YZS. Coral Harbour, Nunavut. NDB (non directional beacon). Weak. One of the few remaining aeronautical beacons in Canada since Nav Canada decided to shut them down. (John Hudak-ON)`` - I have never managed to hear any beyond the southern tier of provinces (Glenn Hauser, OK, WORLD OF RADIO 2346)

** CHINA. 16100, May 12 at 2206, S5/S8 of Chinese, CNR1 jammer vs Sound of Hope, per EiBi. Long hours and many other such conflicts are possible in this area but only one heard now: 15730, 15740, 15760, 15775, 15800, 15820, 15870, 15890, 15920, 15940, 16100, 16160, 16250, 16300 (Glenn Hauser, OK, WOR)

** CHINA [non]. 9790, May 10 at 0643, weak S6/S9 and undermodulated signal in English, discussion by women`s voices. Surely out of CUBA, failing to turn off CRI relay at 0500; might have been an RHC mistake, but not their style, and about China. Nothing else sked on 9790 now (Glenn Hauser, OK, WOR)

** CUBA. 5025, May 11 at 0446 S9+20/30 of dead air from R. Rebelde, SAWA; but often has managed to modulate (Glenn Hauser, OK, WOR)

** CUBA. 5025, May 13 at 0628, no signal from R. Rebelde, OFF. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11880, May 8 at 2158, RHC English with Richard Richards just ending, S9/+10 and // 15140 S9+10/20 softer with windhowl. By 2204 recheck both of these are in dead air. `Ed Newman` often refers to a ``second hour`` in English but it`s entirely unclear when it`s aired vs first hour (Glenn Hauser, OK, WOR)

** CUBA. 11760, May 9 at 0629, RHC English still going this late, S9+15/22 direct (Glenn Hauser, OK, WOR)

** CUBA. 11760, May 10 at 0645, S9+10/15 of windhowl only, yet the SSOB; something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA [and non]. 11880, May 10 at 1902, RHC English, S6/S8 into Knoxville SDR, but heavily distorted! A shame on what had been their clearest frequency. // 15140 is axually better, S7. The opposition frequencies are loud & clear on 11860 & 11930. Also compared on a W3HFU remote in Maryland. So this is not an SDR problem. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA [and non]. 9710, May 11 at 0430 jazz, Spanish? But at 0434 it`s // 11760, S9+20/30 in Portuguese. By 0517, 11760 S9+20/30 in English with windhowl, and // 9710 S9+10/20 but with QRM in Russian from VATICAN (Glenn Hauser, OK, WOR)

** CUBA. 13650, May 11 at 2332, RadioCuba fails to broadcast CRI failing to Portuguize, rather musickize. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, May 11 at 2333, S9+20/30 of huge windhowl and other noise; and 11880 merely deadair at S9+10/20. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, May 12 at 0630, S9+25 of deadair from RHC except for windhowl; and 9710, May 12 at 0633, S8 of dead air. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, May 12 at 2203, RHC S9 of deadair except for windhowl. SAWA (Glenn Hauser, OK, WOR)

** CUBA [and non]. 11760, May 13 at 2216, RHC S9+10/20 of deadair atop some JBA music, presumably CRI `Portuguese` via Xianyang 59 site. 11880, plain old dead air at S9. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 17540, May 11 at 0440, wailing music S9+10, Chineseish. Aoki shows CRI in Hakka, 04-05 via Kashi-Saiba. Lots of JBA carriers on this band, probably mostly E.T. too (Glenn Hauser, OK, WOR)

** GERMANY. 9670, May 11 at 0429, rock music S9/+10, presumably Channel 292, better than usual during nondescript programming (Glenn Hauser, OK, WOR)

** JAPAN [non]. 13750, May 11 at 0436, SSOB music, S8/S9 with flutter vertically and Doppler flutter horizontally, NHK Japanese via Nauen, GERMANY to ME at 04-05 (Glenn Hauser, OK, WOR)

** KOREA NORTH. 13760.40, May 11 at 1403, S5/S7 of VOK martial music. Sounds the same on 11710.0, but switching back and forth on one direct receiver, unseem // or at least not synchronized, tho both are sked as French from VOK Kujang (Glenn Hauser, OK, WOR)

** MEXICO. 1050 kHz, UT Mon May 11 at 0455, Spanish PSAs about Nuevo León, so local Estatal cutaway from `La Hora Nacional`, not // 1570 XERF which is in neighboring Coahuila (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6955 USB, May 11 at 0423, S9+20 pirate music direct vs HSNL over Texas. These say it`s Band Aid Radio, until 0427*: https://www.hfunderground.com/board/index.php/topic,163367.0.html Still off at 0513 check. Few pirates like to run later than 0300 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1300 kHz, May 12 at 0700 UT, ``the latest news from The Patriot``, i.e. KAKC Tulsa U4 5/1 kW. Day pattern oval N/S but with Enid right on the ``distant`` contour per radio-locator. I can`t really hear it in daytime vs noise level on the E/W longwire, weak but sufficient on caradio. Night pattern with a *very* deep notch toward Enid; protecting ND KCSF Colorado? (Glenn Hauser, OK, WOR)

** OKLAHOMA. 5140 USB, May 13 at 1400, no signals yet, nor at 7477 alternate; finally at 1402.2, WPFY721, Seminole EOC, Ernie, as NCS, opens Oklahoma Operations Secure Test Net late, asks for any early/urgent check-ins? No. Roll call, this time he usually utters calls twice in a row without pausing and always from his own call

re-uttered.
WQYW443, [Beckham County not mentioned];
WQZT582, Broken Arrow;
WQSY836, Byng; [I copied it as WQSH836];
WNPV700, Durant, Bryan County, Bill ans, 2nd call woke him up; guesses
this is now permanent job for Ernie? Always strongest signal here.
WPFY721 replies that not, but Breanna had tech problem this week;
WQYG374, Leflore County: no ans but asks who this is? Someone replies
that it`s Dennis. Or was it WQUG374 as copied last week.
WQYW883, Moore, Gaylon ans but unreadable.
WNUW216, OKC Mac;
WNUW215, Ponca City, Jason no ans;
KNGR728, Pontotoc County; ans JBA, Gaylon heard him.
WNUW212, Pottawatomie County: a new one, Shawnee the county seat;
there is another Pottawatomie County in Kansas not including Shawnee;
no ans.
WSHM692, State of Oklahoma [Breanna in Edmond];
WNBM839, Stillwater; or WNBM831 as copied?
WNCH624, Tulsa County;
Any additional/late check-ins, in-state? No.
WNBE830, Missouri State EOC, Jefferson City; Corey ans JBA;
WPES740, Camden County MO: ans by Ernie;
1412 summary: 4 OK and 2 MO check-ins; NCS Ernie WPFY721 closes net
until next week (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.5, May 8 circa 2015 UT, undermodulated mono rock
music, pirate with very short range of a few blox centred at S
Cleveland and W Garriott in Enid, still running when I`m close enough
with the caradio (Glenn Hauser, OK, WOR)

** OKLAHOMA. Stitt vetoes bill to continue OETA
Enid News & Eagle May 7, 2026

OKLAHOMA CITY — Gov. Kevin Stitt has vetoed a continuation of
Oklahoma’s state-funded TV station, contending taxpayer dollars
shouldn’t subsidize public broadcasting.

The Oklahoma Educational Television Authority would reach its sunset
date July 1 and have a year to wind down its operations, if the
governor’s veto is not overridden or counteracted with other
legislation. Senate Bill 1461, which Stitt vetoed, would have extended
OETA’s existence to July 2031...

https://www.enidnews.com/news/stitt-vetoes-bill-to-continue-oeta/article_0d5d9fa3-33bc-4736-
bd62-a46535ac98c3.html
If you can`t access full story there, I have posted it in the WOR
iogroup (via Glenn Hauser, Enid, WOR)

** ROMANIA. 9510, May 11 at 0428, RRI IS, S9/+10, before 0430 Russian
scheduled via Tsiganeshti (Glenn Hauser, OK, WOR)

** SPAIN. 15500, 15520, 17715, May 8 at 2159, ops normal at REE,
progressively weaker but still good signals, all of them modulating,
but none at all on 15390. If it`s Friday there must be no token
English (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Mon May 11 at 2030, accurate timesignal and Chinese
S9 from REE - to North America?! Wow, how lucky can we be? I see their
sked shows it once a week at 2030-2100. Trouble is, Noblejas has no
antenna aiming at China; and I see it`s on all frequencies, four if
they ever manage to emit and modulate them all. I suppose the best
chance would be the S American beam at 230 degrees on 17715: directly
off the back would be 50 degrees. Maybe worx with midnight sun, but
2030 UT is 4:30 am in Beijing and also in East Turkistan where it`s
really 2:30 am pretending to be 4:30 - or long path off the front? I

feel so sorry for the ChiCom (Glenn Hauser, OK, WOR)

** SPAIN. Re my comments about REE in Chinese toward North America since no antenna aimed thataway, I note this schedule via WWDXC DX Magazine:
(Source: <https://www.short-wave.info>)

15500	20:00	20:30	.....6.	Arabic	200	110
15500	20:00	20:30	.2.....	Sep	1	ND
15500	20:30	21:00	.2.....	Chinese	1	ND
15500	22:00	22:30	7	Russian	200	110

And the same for three other frequencies, i.e. 200 kW at 110 or 161 degrees -- which are NOT toward NAm! except for Tuesdays 2000-2100 when it`s only 1 kW non-direxional! in Sep[hardic?] and Chinese -- but my random log direct on May 11 certainly did not entail a drop from 200 kW to 1 kW. That source also shows several beam changes on each frequency during the day, instead of constant beams on each toward certain target areas as in HFCC. One reason I do not consult or rely on that website. How in the world did they come up with such strange info? And who is behind it? (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Wed May 13 at 2200, REE timesignal and usual elexion promo for Andalucía; deadline to dispatch absentees is today. 2201 open token weekly English with the heavily accented Daniel and less so Alba, ``live`` from the studios, NOT. Preview topix: hantavirus with a WHO Dr. assuring that it`s not a pandemic or epidemic threat; Barcelona as world capital of architecture for 2026. 2203 news summary: hantavirus: 14 Spaniards now quarantined in Madrid; Pres. Sánchez met with WHO director, thanks Spain; but Canary Island leader reluctant to accept HVictims. Dr Daniel López Acuña on HV. Encrypted files about something.

The newscasts include long clips of original Spanish which are not directly translated: fine for me and other bilinguals, but might be putoffs for English-only listeners. Or, hint, hint? Gender-based violence, women murdered in Spain count. #1 in respect for LGBTQ equality. 2209, Israel finally releases some Palestinian hunger-strikers... I never seem to have time to monitor the whole hour, but see Ken Zichi`s reports, tho last time I suggested that, he missed a week (Glenn Hauser, OK, WOR)

** SUDAN SOUTH [non]. 11640, May 11 at 0433, S9+20/30 in Arabish. It`s R. Tamazuj via MADAGASCAR in Juba dialect (Glenn Hauser, oK, WOR)

Reply: ``Glenn, is Radio Tamazuj now on 11640 at 0430? That has been the timeslot and frequency for Radio Dabanga, which was still there when I checked recently. Stephen Luce (Houston, Texas)``

``Hi Glenn & Stephen - May 12, checking 11640, via KSDR remote at S. Africa; tuned-in at 0436 UT; clear Radio Dabanga IDs, so thank you Stephen. My remote audio -
https://app.box.com/s/g5sgmpg0xucfx1siykafdqmpikainua8
{multiple sung IDs}. Aoki database is wrong:

A26 Shortwave Frequency List May 11 2026, 2300 UTC

kHz	Time(UTC)	ITU	Station	Lang.	Location	Days
11640	0330-0400	MDG	JRC Radio Dabanga	Dar	Talata-Volo	1-7
11640	0430-0459	MDG	JRC Radio Tamazui	Jub	Talata-Volo	1-7 [observed Radio Dabanga - Ron]
11640	1700-1800	MDG	JRC Radio Dabanga	Dar	Talata-Volo	1-7

Ron, Monterey, California``

``WRTH web app:

(Mauno Ritola)
(via Glenn Hauser, WOR)

** TURKEY. 11785, May 8 at 2157, 2201, no signals from VOT English here nor on accidentalternate 9875; nor at 2228 check into UTwente. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 9 at 2209, VOT S9+30 into UTwente with music. At first displayed as 11784.999+ at S9+30, making me wonder if it were else, as too accurate; but step up 5 kHz and back down in SAM mode then displays at 11785.004, more believable; 2215 `Conflict Zones of East Africa`, certainly a VOT programmme as in Alan Roe`s schedule (Glenn Hauser, OK, WOR)

** TURKEY. 11660.003, Sun May 10 at 1630, VOT English, S9+30 into UTwente, s/on now acknowledges that ``you may be listening to a later repeat`` of the original 1230 on 17620 - I am sure this is a direct result of my complaint that otherwise it`s nonsensical to keep saying only that it`s 1230 on 17620. But axually citing the current time and frequency for each broadcast is asking too much. Cemre then into news. At 1640 end of news, also ``originally broadcast live`` rather than acknowledging that it is ``olds``, hi.

1641 theme starting ``The Letterbox Program`` - past week important at TRT, 99 years of radio broadcasting, 6 May 1927. I still have a hard time copying names of listeners and locations! 1) Annan? Bain?, Chat. India, SWL club, listened via UTwente, innocent people killed in Iran war is heartbreaking, has not received QSL cards. 2) Tom Shelton?, Netherlands, 5960 inbooms QRMing 5955 station, could VOT reduce bandwidth? No further details; 5960 was B25 English at 2300 but no 5955 in EiBi at that hour; if in A26, 5960 runs 1830-2100 in Turkish, but nothing listed on 5955 during those hours, either. 5955 could still be a LP or pirate not in listings. 3) Mr. Kuznetsov, Riga, Latvia, 11785 at 1901-1927 UTC! WRONG, she does not realize, it`s at 22+ UT only. 5) A third young person from Zaragoza, Spain, Paul Vicente Farón?; are they all in a club? Also wants pQSL, stamps, heard Spanish on 13725 - that is at 1630. 6) Someone in a DX club in India, 11660. 7) Mr Kazuaki? in Kawasaki City, Japan, 51-year listener, a pharmacist. 8) someone in a listeners club in West Bengal - no one from N America lately. 1657 ending. 1658 `Geo-economix Diary` (Glenn Hauser, OK, WOR)

** TURKEY. 9770, May 11 at 0430, timesignal direct is 4 seconds late compared to WWV/H at the next minute. If can`t do better than that, should not TS at all, which implies accuracy to at least 1 second. During Turkish bihour. Not always timesignals on half-hour? (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 11 at 2158, no signal of VOT into UTwente, but *2159 cuts on S9+15/30, just in time for IS & ID and s/on in English. Not really listening but did notice it go off circa 2256 (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 12 at 2157, 2213 and 2221 chex direct, no signal from VOT English; nor accidentalternate 9875. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 13 at 2157, no signal direct from VOT but *2159

S9/+10 with IS & ID, English; 2217 check, repeat of Sunday`s Letterbox (Glenn Hauser, OK, WOR)

** U S A. 419 MCW kHz, May 13 at 0623 UT, GB, 25-watt NDB `Babsy` at Great Bend KS. Despite proximity, last logged Nov 13, 2021, but carrier detected on three bandscans in 2025y (Glenn Hauser, OK, WOR)

** U S A. 4095, May 8 at 0652 UT, sweeps upward are JBA in noise level S7/S8, so DW, the ``Desert Whooper`` somewhere in the Southwest, is still active (Glenn Hauser, OK, WOR)

** U S A. 18154 USB, May 11 at 2326, KE2CIE calling CQ POTA. QRZ.com: ``KE2CIE USA flag USA, Michael J Stitley, 4780 COUNTY ROAD 4, Burdett, NY 14818, USA - I really enjoy POTA and activating parks in the Finger Lakes Region of New York. Most of my radio time is POTA {Parks On The Air}. I have an ambitious goal of activating all states. I have already activated eleven states and two Canadian Providences {sic}.`` Just before this had found zero activity on 10, 12 and 15m bands; but some pileup on CB 27025 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2345 monitoring: confirmed Thursday May 7 at 1630 on SW Radio Gold, Germany, 6160.001-, S9/+5 into UTwente, and for a change, no RTTY QRM on plus side.

Also confirmed Thursday May 7 at 2330 on WRMI 5950, S9/+5 direct.

WORLD OF RADIO 2346 contents: Antigua, (Armenia), Australia, Belgium and non, Brazil, Burkina Faso, Canada, China, Cuba and non, France, Indonesia, Iran and non, Kuwait, Malaysia, Mali, Mexico, Myanmar non, (Philippines), Russia non, Spain, (Taiwan), (Tajikistan), (UAE), UK, USA, (Uzbekistan), Vanuatu; propagation outlook - (countries mentioned along with others not in order).

2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2346 monitoring: confirmed UT Saturday May 9 at 0300 on WTWW 5085: usual rough start, first few words, cut to ID, start over, but then seems to be OK. Off by 0331 but did not hear WOR axually concluding.

Also confirmed Saturday May 9 at 1440 the 1430 on SW Radio Gold, Germany 6160.001-, S9/+5 into UTwente.

Also confirmed Saturday May 9 at 1554 the 1530 on WRMI 9955, S9+20/25 into Georgia SDR; however cutting out and in for last few minutes, probably SDR problem.

Also confirmed Saturday May 9 at 1600 on WRN via WRMI 9395, S9+20 into Georgia SDR; and JBA S7 on 7730 to same. At least 9395 at this time to be replaced by something else later in May.

Also confirmed Saturday May 9 at 1930 on SW Radio Gold, Germany, 6160.001- S9+10/15; and 3975.001-, S9/+15, both into UTwente.

Also confirmed Saturday May 9 at 1932 the 1930 on WRN via WRMI 9395, S9+5.

Not confirmed the 1930v Sat May 9 on WA0RCR, 1860 AM, MO, NBN = nothing but noise into several remotes in the area.

Also confirmed Saturday May 9 at 2108 the 2100 on WRMI 9395, JBA in HNL.

Also confirmed Saturday May 9 at 2230 on WRMI 17790, S9+15 into Bonaire SDR.

Also confirmed Saturday May 9 at 2230 on WRMI 15770, S9+25 into W3HFU remote in Maryland.

Also confirmed UT Sunday May 10 at 0323 about 4 minutes into when I say ``festooned``, so the 0315v started about 0320 on WA0RCR, 1860 AM, MO, in quick LW antenna check during lightning storm direct.

Also confirmed Sunday May 10 at 0630 on WRMIs: 5850 S9+45, 7730 JBA, 7780 S7/S9.

Mizzzed checking Sun May 10 at 0930 & 1030; anyone?

Also confirmed Sunday May 10 at 1900 on IRRS SW via AM Italia, 1322.995, S9+10 into nearby Noale SDR - and still nothing on 918 or 207: do they ever test/run those frequencies anymore? Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2130 UT Sunday SW Radio, Germany 3975 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975 6160;
0330 UT Tuesday WRMI 5850 to NW or 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];

1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975, 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2346 monitoring: also confirmed Sunday May 10 at 2000 on IRRS SW via AM Italia, 1322.995, S9 into UTwente.

Also confirmed Sunday May 10 at 2000 on WRN Europe stream.

Also confirmed Sunday May 10 at 2130 on SW Radio Gold, Germany, 3975.001, S9+5/10, and 6160.001-, S9+5, both into UTwente.

Also confirmed Sunday May 10 at 2330 on WRMI 9455, S9+15/28 into IL SDR.

Also confirmed UT Monday May 11 at 0030 on WRMI 7780, S7/9+5 into IL remote.

Also confirmed UT Monday May 11 at 0130 on WRN North America stream. This one does not also gain any WRMI relays; checked all fqs just in case.

Also confirmed UT Monday May 11 from 0301 on Area 51 webcast only, as 5130 WBCQ is already signing off, after JL gotta go. next:

1930 UT Monday SW Radio, Germany 3975 6160;
0330 UT Tuesday WRMI 5850 to NW or 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975, 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2346 monitoring: confirmed Monday May 11 at 1932 the 1930 on SW Radio Gold, Germany, 6160.002-, S9+10/15, and 3975.001+, S8/9+10 into UTwente.

Also confirmed UT Tuesday May 12 at 0330 on WRMI 5850, VG direct. ``Freedom Synergy Radio`` pro-Taiwan in English was cut at 0330 for WOR, but continued on // 7780.

Also confirmed Tuesday May 12 at 1300 on WRMI 9955, S5/S7 direct.

Also confirmed Tuesday May 12 at 1400 on WRMI 9955, S3/S5 JBA direct.

Also confirmed Tuesday May 12 at 2011 the 2000 on IRRS SW via AM Italia, 1322.995, S9+12 into nearby Noale SDR. Next:

2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975, 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2346 monitoring: confirmed Tuesday May 12 at 2230 on WRMI 9955, S9+15/20 into Georgia SDR.

Also confirmed Tuesday May 12 at 2330 on SW Radio Gold, Germany, 3975.002-, S9+5/10 into UTwente.

Not confirmed UT Wednesday May 13 at 0030 on WRMI 9395, because this transmitter is OFF the air past 0100! Unknown when resumed but JBA at 1350.

Confirmed Wednesday May 13 at 1930 on SW Radio Gold, Germany, 3975.001- at S9+15 and 6160.000+ at S9/+5 into UTwente.

Also confirmed Wednesday May 13 at 2100 on WBCQ 7490 -74 Hz = 7489.926, S9/+20 into Maryland SDR, following TOMBS until 2059 chop. My countless reports via a Maryland SDR have usually meant NA5B, but it`s harder to access, so I am now preferring one of the multiple W3HFU remotes.

Also confirmed Wednesday May 13 at 2330 on WRMI 9395, S9+30/40 into Georgia SDR, unseems undermod thus. Next:

1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.

Many thanks for a very generous contribution via PayPal to woradio at yahoo.com from Chris Campbell, Columbus OH, ``I can't exactly put a price on what you provide but it's worth a hell of a lot of money!``

One may also contribute by MO or check on a US bank to
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 9395, May 13 at 2219, WRMI S9+10/20 but undermodulated; and at 2222, 7730 S9+10/20 JBM = just barely modulated. I don`t know how to quantify % modulation, but would be interesting for someone to survey all their transmitters. My evaluations are certainly subjective (Glenn Hauser, OK, WOR)

** U S A. 5085, UT Saturday May 9 at 0100, WTWW is on with open carrier for weekly? transmission; 0103 ID and into some religious program which originally aired in a ``morning``. VG signal direct, so prospects are good for WOR to appear at 0300; if not immediately, hang around: sometimes has started late (Glenn Hauser, OK, WOR)

** U S A. 9670/10185, May 9 at 2107 very approx. extent of splatter out of 9930 WTWW which is overmodulated and distorted, S9+40/50 direct. Of course worse closer to 9930, heavy QRM to 10000 WWV, 9955 WRMI; and any other weaker signals in the range. Still so at 2140 and 2200 into Crowley TX SDR between 9800 and 10100 or so. I urged George to turn it off immediately until it could be fixed. Did not hear it go off but maybe eventually the splatter lessened. By 1445 May 10, OK, no splatter (Glenn Hauser, OK, WOR)

** U S A. 7490, UT Saturday May 9 at 0000 into NH SDR, WBCQ with WTO opening `AAAWWW`. This remote has WWV jumping around, so no good now

for precision frequencies. Talkovers theme: ``OK, OK``; ``World needs shortwave radio more than ever now``; ``hope``. May be new. A&A launch right into their Trump Derangement, Angela especially yelling at us, no mike chex this time. It`s recent enough for Iran war to be mentioned. But I can`t take any more of that, tune away at 0010. For the record, 5130 was on by 2356 May 8 with IS & ID loop; no signals on 3265, 6160 or 9330 before 2400 (Glenn Hauser, OK, WOR)

** U S A. 9275, May 11 at 2337, deadair at S9+20/30, still so at 2343 from WMLK; and I believe 17525 was completely missing earlier (Glenn Hauser, OK, WOR)

** U S A [and non]. 15150, May 13 at 1357 & 1436, S9+30 of dead air from WMLK, like May 11 at 2337 - and ever since? Meanwhile other reports:

``An abundance of dead air -- 9275 WMLK and 9490 R. Republica have no audio at 0208 May 12. Regards, Paul Walker`` WY.

``Last night dead air on 9275 has been brought into balance by broadcasting two progarmmes at the same time on 9275 at 2345 UT [May 12]. Really!?!? Is no one on site monitoring this stuff? Tony Pavick``, BC.

``One thing that I find to be a problem across all broadcasters is an almost apathetic attitude about their transmissions. Barely a week goes by without a report of station X being off the air, on the wrong frequency, running the wrong programme/language, forgetting to turn off a transmitter, or being on but being dead air. This happens not only on SW but MW as well. WMLK regularly fails to appear on 15150 and 17525. Several months ago, I emailed them about the brief DRM transmission that went out before their 2300 UT sign on on 9275. Never received a reply. Cuba being messed up all the time, I can understand. But stations like WMLK or even WRMI, WWCR and WTWW? At least WRMI and WTWW seem to reply when you report an issue. Not sure about WWCR. Tony Pavick``

Radio Guy VE3SNE: ``I agree, the same thing happens regularly for station WKNW Sault {Ste Marie, 1400} Michigan, hours of good signal but no modulation. Their output is only 1 kw so power consumption is probably not a concern, but for the shortwave transmitters that must be a issue!`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 790, May 7 at 0648 UT, ID as 106.5 KBBX? I am more sure of the FM frequency than the call, but hunting thru NRC AM Log and WTFDA FM Database, cannot find anything fuzzily similar or correlating these two frequencies (Glenn Hauser, OK, WOR)

** U S A. Re: " UNIDENTIFIED. 790, May 7 at 0648 UT, ID as 106.5 KBBX? I am more sure of the FM frequency than the call, but hunting thru NRC AM Log and WTFDA FM Database, cannot find anything fuzzily similar or correlating these two frequencies (Glenn Hauser, OK, WOR)":

``I wonder if KURM is back on the air, perhaps just to keep the license alive.  Before they went silent, they were simulcasting KBVA 106.5 which is phonetically similar to what you heard. 73 Tim`` Hall. Tnx, Tim, you are a big help with my unIDs!

KURM is in Rogers AR, surely easily heard here if on, U2 5000/500. Radio-locator.com says ``KURM-AM 790 kHz Rogers, Arkansas "Dial a Trade Station"`` Currently Off the Air AM station, and does not display coverage maps if it were not off! It`s in NW AR, per NRC Pattern Book, ND daytime, direxional west at night. FCC LMS says licensed and silent as of 08/09/2025; facility ID 34266.

790, I stay on it the next night May 8: amid heavy QRM, at 0624 UT, I think I hear KURM mentioned in passing. At 0701, ABC news, maybe other station, but then mention KBDA? and ``Rogers``. Awake again at 1117 UT, mentions ``Northwest Arkansas`` and ``Freedom 101.5`` and I think another FM station. Anyhow, this surely clinches it as KURM back on air. Meanwhile I had emailed the address on record for KURM at FCC LMS, hecklerkoch91@yahoo.com --

``Hello, last night I was hearing a station on 790, that sounded like KURM, also mentioned FM 106.5. I wonder if KURM is back on the air? This was at 1:48 am CDT Thursday May 7. Regards, Glenn Hauser, Enid OK`` - and the May 8 reply!

``Kurm is back but is currently mirroring kbva 106.5 until our studios are done, around the end of this month, then it will air its old schedule``

Per WTFDA FM Database, KBVA is in Bella VistA, ``Lite 106.5``. Has no ``Freedom 101.5`` in AR or anywhere; of the five 101.5s in AR, the closest one is KXVB Greenland, ``The Vibe`` with classic hiphop.

``Tnx Glenn. Happy to help. Your Freedom 101.5 is co-owned KXVB Greenland AR.
en.wikipedia.org/wiki/KXVB 73 Tim`` (Glenn Hauser, OK, WOR)

** U S A. 900, May 11 at 0502, Scheherazade classical music catches my ear, but soon ID as AM 900, WKDA Lebanon TN, into old nostalgic song. At least I think these were same station, usual dominator of 900 at night. Can`t be legal 136 watts at night, rather 5 kW day power, both ND (Glenn Hauser, OK, WOR)

** U S A. 1190, May 12 at 0659 UT, multi-station ID including KVSV. That is U4 2300/90 watts in Beloit KS. Last logged July 12, 2019 at 1215 UT, and part of a ``SAH survey`` at midday Sept 3, 2019, q.v. Same day & night patterns skewed westward but plenty southward. Beloit is in N central KS near Concordia. Also Spanish QRM now, probably XECT or XEPZ rather than WLIB or other minor USAns (Glenn Hauser, OK, WOR)
see UNIDENTIFIED 1190 below

** U S A. 1330 kHz, May 11 at 0451 UT, country music, hymn, dominant night signal here is KCKM Monahans TX, which must assume runs 12 kW ND day power, rather than 1 kW night with a null thisaway toward Wichita, which is underaudible with (316) AC ad; and at 0510 C2CAM underneath, probably also KNSS (Glenn Hauser, OK, WOR)

** U S A. 1350 kHz, May 11 at 0511 UT, Spanish music in the mix, must be KXTN San Antonio, ``Tejano`` format, as the only SS in NRC AM Log is WHWH in NJ, and it`s merely brokered including some Spanish. But KXTN 5 kW night pattern has a notch northward thisaway, so on 5 kW ND day pattern? This was originally KCOR including when I lived in Von Ormy (Glenn Hauser, OK, WOR)

** U S A. 1500 & 830, May 11 at 0457 UT and earlier, hardly any JBA signals from KSTP & WCCO; auroral condx but not affecting stations a bit further south. In addition, KSTP on low power, not 50 kW (Glenn Hauser, OK, WOR)

** U S A. 1680, May 11 at 0448, ``from the 70s to the 2000s, The Legends, 99.7``, from KRJO Monroe LA, a mere translator K259CU. No QRM from local VDJR pirate (Glenn Hauser, OK, WOR)

** VATICAN. 11910, May 11 at 2335, S6/S9 seemed Khmer, but sked as Vietnamese direct from SMG daily at 2315-2350 (Glenn Hauser, OK, WOR)

** VATICAN. 11910, May 12 at 2200, VR IS and Chinese opening, I think

with ``LIX/59`` in Mandarin, S3 direct. As SMG continues to provide unexpected signals nowhere near the target (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 880, May 7 at 0649 UT, Mexmx dominating, way over KRVN if any. Condx unseem auroral on other frequencies. Rather then anyMex, suspect WIJR Highland IL U4 1700/160 or WMDB Nashville TN U1 2500/2, either of which needing to be on day power, as heard before. Several minutes later, faded down. BTW, I used to get KHAC Tse Bonito NM, REL/ Navajo U1 10000/430 but not in a long time. The only 880 Mex is apparently silent XECHEP Chihuahua2 5000/250 Acústik (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1190, May 13 at 0715 UT, Mexmx and clear non-ID as ``Radio La Ley``. Previous log April 8 did not find any US or Mex station named this. Broad search now on frequency and Ley gets one hit of all places on Yelp as Fort Worth TX - but 1190 DFW is still a talker in English. Got to keep on this for a legal ID! Unless someone knows? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9490, May 11 at 0423, S9 open carrier, probably Issoudun, France, failing to turn off at 0400 after República (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9936.0, May 11 at 0519, S9+10 open carrier but clix boost it to S9+20. Not quite evenly spaced, but counted eleven in a semiminute, so 22/minute. Then carefully tuning up and down, I can still detect the clix between 9923 and 9949, or +/- 13 kHz; why, and what is this? These clickers always end in -6 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Re: ``15180.51, May 5 at 2202, weak carrier, seems open, and fading so unlikely local. But no broadcaster listed on 15180 now in Aoki, EiBi or HFCC. At 2303 into Georgia SDR, an inaudible and invisible carrier at 15180 synched at +240v Hz (Glenn Hauser, OK, WOR)``

``May 7 - Voice of Korea - Heard your UNID on the high side of 15180 (frequency variable, seemed unstable), from 1120+ UT, in French, via KSDR at Bandung; music program // 11735. Aoki database: 15180 1100-1157 KRE Voice of Korea Fre Kujang 1-7 - Ron Howard``

While VOK is well subject to offfrequenciness, I did not consider it at such a totally different daypart (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 18950, May 11 at 2325, JBA talk. HFCC registers this as AM 24 hours from Vatican, 100 kW, to ALL CIRAF target zones, by RDR = International Radio for Disaster Relief, i.e. a placeholder for something rarely if everly activated. Surely something else, likely China, such as CNR1 jammer (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 18965, May 11 0442, S7/S9 of dead air; 18950 May 11 at 0443, JBA talk S3/S5. Nothing listed for either but probably CNR1 jamming and/or SOH (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 18985, May 11 at 2325, S9/S7 open AM carrier. This is registered as CRI in Mandarin to Oceania from site Kunming -- but only in DRM and only at 02-03 & 05-06. I think not (Glenn Hauser, OK, WOR)
